Personal Projects

Music Player Simulator

April 2023

- Built a fully functional Music player which reads from a text file a store of audiobooks and songs. Can play music and audiobooks and create user playlists containing both. Can sort content by genre, name, date, etc.
- Developed Using Java

Volunteer Work

Jesus New Covenant International Ministry, Toronto — Worship Leader, Musician and Missionary at JNCIM

2016 - PRESENT

- Led team of 4-7 musicians to create spiritual and musical experiences that resonated with a congregation of 50+ people.
- Skillfully coordinated and led a team of musicians and vocalists to deliver inspiring worship services.
- Collaborated with a team of 15+ people to conduct a transformative overseas mission in 2017, promoting the understanding of Christianity, and providing basic needs to the poor

Uprising Conference, Toronto — *Stage Crew*

August 2018

- Collaborated effectively with team members, providing valuable support and contributing to the accomplishment of shared tasks and objectives.
- Demonstrated a strong sense of teamwork and willingness to take initiative in assisting colleagues to ensure efficiency and smooth execution of tasks.
